ABOUT SAVE COPS ADVOCATES

COPS Advocates help domestic violence survivors on site at Fremont, Newark, Hayward, Union City and San Leandro Police Departments, as well as Union City Family Center.

Advocates work closely with police officers to help you as needed, and may call you if a police report has been filed due to a domestic violence incident.

COPS Advocates provide the same crisis support, referrals, and advice as our hotline counselors

Because COPS Advocates often meet one-on-one with survivors, they establish longer-term relationships with their clients and can provide ongoing support as needed.
