ABOUT THE VAGINA MONOLOGUES

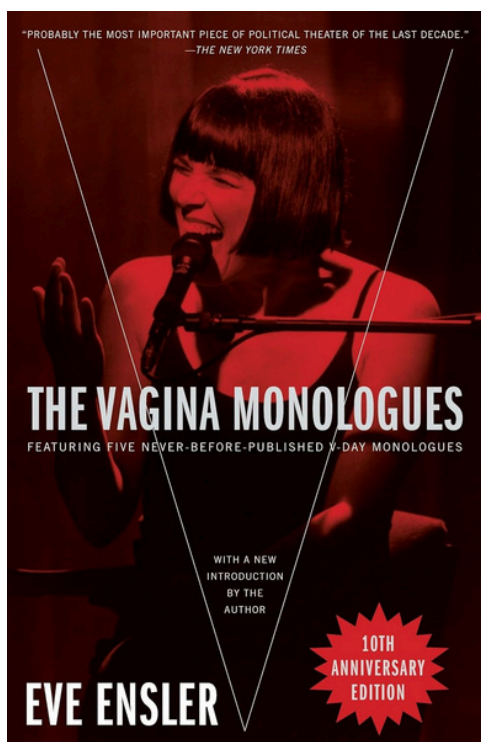

We are excited to announce the debut performance of The Monologues. We invite you to join us in this powerful and meaningful stage play as we boldly raise our voices to tackle the taboo subjects that many of us hesitate to discuss. This production acts as a fundraiser for SAVE's essential services that support survivors of intimate partner violence. Your participation can genuinely transform the lives of those who need it the most.

The Monologues remains just as relevant today as it was when it first premiered in 1996. Translated into over 48 languages and performed in more than 140 countries, it was recently recognized by The New York Times as "one of the most important plays of the past 25 years."

This hilarious and eye-opening journey explores the last frontier—the forbidden zone at the core of every woman. The Monologues amplifies a chorus of bold, outrageous, and deeply human narratives, turning the question mark over anatomy into a triumphant symbol. With its wit and irreverence, as well as its evocative and wise storytelling, audiences are taken to a world they've never dared to explore.

"Funny, outrageous, emotionally affecting, and occasionally angry. The Vagina Monologues confronts words to demystify and disarm them. In so doing, Ensler disarms the audience."
